

Mobile technology. Personal service.

Apfel Park
Hamburg-Wilhelmsburg

Buy devices, arrange repairs and discuss your next steps with us – in store and online.

Apfel Park combines a specialist store in Hamburg-Wilhelmsburg with an online shop serving customers across Germany. Our range includes smartphones, tablets, accessories and repair services. Customers can view available devices in store, order online or collect their orders from the shop. [1–3]

We focus on clear product information, personal advice and agreement on the details before an order is placed. Device condition, included items, price and availability are stated in each offer. For repairs, the diagnosis and costs are discussed before any chargeable work begins. [2, 4]

SALES

Smartphones, tablets and accessories with clearly stated device condition.

REPAIRS

Diagnostics and technical support for mobile devices, computers and laptops.

ONLINE & IN STORE

Online shopping and service enquiries, collection in Hamburg and shipping within Germany.

What sets us apart

Personal contact

A direct point of contact in our store and through our digital channels.

Transparent repairs

Price, replacement part and estimated timeframe discussed after diagnosis.

Enquire online

Online booking and individual quotation requests for devices and services.

Clarity before purchase

Device selection by model, storage, condition and compatible accessories.

A choice of conditions

New, open-box and pre-owned devices in our range.

Repair rather than replace

Repair and continued use as an alternative to buying a new device.

As at 18 September 2026. Sources: company website [1–4] and additional service information from Apfel Park. Source list on page 4.

01 / PRODUCTS AND SERVICES

One point of contact. Multiple solutions.

Our product range

Smartphones & tablets

Devices from Apple, Samsung, Google Pixel, Xiaomi and other manufacturers. Model, storage, colour and connectivity depend on the individual offer.

Condition & choice

New, open-box and pre-owned devices. Condition, packaging, signs of use and included accessories should be checked for each product.

Accessories & more

Protective cases, tempered glass screen protectors, chargers, cables, power banks, headphones, smartwatches and other electronics; compatibility depends on the model.

Computers & laptops

Enquiries about available notebooks and computer or laptop repairs. Specifications and scope of service are agreed individually.

Repair services

Displays, glass and power

Display and glass repairs, battery replacement, and diagnosis and repair of charging ports and charging faults.

Cameras, audio and diagnostics

Checks of cameras, speakers, microphones and other device functions; diagnosis of hardware and software problems.

Complex damage

Assessment of water damage, data recovery enquiries, and board-level and chip repairs following technical evaluation. Successful repair or data recovery cannot be guaranteed in every case.

Setup and support

Device setup, data transfer, backups, security checks and help with software issues. Device buyback or trade-in following individual assessment.

Online booking and individual quotations

Repair appointments and service enquiries can be initiated online. Individual price enquiries and estimates are available for listed spare parts and hardware components, newly released smartphones and accessories. Required models, parts and quantities are checked before a binding commitment is made.

Assess first. Then decide.

Repairs begin only after approval. Turnaround times and spare-part availability depend on the device, damage and workshop workload. Additional warranties apply only under the conditions stated in the quotation or order. [4, 5]

02 / BUSINESS CUSTOMERS AND PROJECT ENQUIRIES

Understand the need. Offer the right solution.

For businesses, educational institutions and public-sector buyers

Planning to procure smartphones, tablets or accessories? Apfel Park welcomes project enquiries. Requests for individual devices, additional purchases and larger quantities are assessed against the required models, supply availability and requested scope of service.

We tailor devices, accessories and supporting services to each requirement. Supply quantities and project terms are specified in the individual quotation.

Share your requirements

01

Tell us the device types, quantities, minimum technical specifications, required condition, accessories and delivery location. For tenders, include the specification and bid deadline.

Confirm availability and the quotation

02

We check the requested products and proposed scope of service. The individual quotation sets out specifications, included items, price, and agreed delivery and service terms.

Arrange ordering and handover

03

Orders can be placed through the online shop or by individual arrangement. In-store collection and shipping within Germany are available; project delivery dates are confirmed separately.

Plan for service needs

04

Setup, data transfer, repairs and after-sales support are agreed as required. The specific quotation sets out the scope, contact person and any additional warranty terms.

What to include in your enquiry

Devices and quantities • minimum technical specifications • new or other permitted condition • accessories and setup • delivery address and date • required supporting documents • contact person and quotation deadline

Send project enquiries to info@apfel-park.de

Suggested subject: Project enquiry – Smartphones / Tablets – [Quantity]

Note for procurement procedures

Eligibility documents, references, insurance coverage and specific service requirements must be assessed and substantiated separately for each tender. This profile does not make blanket commitments regarding large volumes, rental fleets, mobile device management (MDM) or certifications.

Sources: company information and published shop, delivery and service information [3–5, 7]. Project-specific services are subject to separate agreement.

03 / COMPANY DETAILS AND CONTACT

Easy to reach.
In Hamburg and online.
